Taidefoam NS

Defoaming agent

I. Properties

1. Appearance : milk liquid
2. Ionic activity : nonionic
3. pH value (1% Sol.) : 6~8
4. Main component : Non-Silicone
5. Solubility : dilutable in cold water
6. Storage : good storablity

II. Features

1. Non-Silicone defoaming agent Taidefoam NS with strong defoaming and foam Inhibition , it can work in the acid and alkaline solution °
2. Taidefoam NS can working in any dyeing temperature range with good defoam effect °
3. Taidefoam NS is non-silicone which Taidefoam NS used without silicone spots °
4. Taidefoam NS is non-silicone which has wide range to used °

III. Application

1. Taidefoam NS can lowing the surface tension of solution to defoamind and foam inhibition ° The require quantity should be adjusted according to the operating condition °
2. Diluting 3~4 times with cold or warm water before to used °
3. The useage quantity about 1~3 g/l °

The information and data in this bulletin are based on accurate laboratory researches

and intended for your guidance. We cannot, however, accept any responsibility for the results obtained, in view of the numerous factors of applications are beyond our control. Our guarantee is limited to consistent quality of our products.
